RENSHAW CASE
IN PROGRESS

The Trial of Ernest Wilson and Bubber Chafin Began Yesterday Morning.

WILL TAKE SEVERAL DAYS.

Charged With The Murder of John M. Renshaw Last Fall—Tried Jointly.

The jury in the Renshaw case was completed yesterday morning and the trial of Ernest Wilson and "Bubber" Chafin, colored, was begun. They are charged with the murder of the former Republican sheriff John M. Renshaw last fall. The men will be tried jointly. A special panel of names were drawn from the jury wheel Thursday evening, in order to complete the jury.

There are nearly a hundred witnesses and the case promises to occupy several days. At the examining trial the testimony for the prosecution was circumstantial, but it is understood that now much new evidence is to be presented. Also at the examining trial the defense presented an alibi for both defendants. This will probably be adhered to now.

Mr. Renshaw was shot through the head with a pistol as he was driving into town one afternoon last fall. He was shot at a point on the Clarksville pike, one of the most important roads in the county, a short distance out of town, but so far no eyewitness has been found. Mr. Renshaw lived for nine days, but he never regained consciousness or told anything that would shed light on the affair. Mr. Renshaw was one of the foremost citizens of the county and was a well-to-do stock breeder. The attorneys for the defense are C. H. Bush, J. C. Duffy and Southall & Son. The prosecution is looked after by Attorneys Denny P. Smith and Ira D. Smith.

THE JURY.

Nick Edwards, E. R. Watson, Geo. Underwood, E. A. Haile, W. C. Payne, C. E. Mann, B. F. Wright, W. A. Stroube, J. C. Fleming, E. H. Kemp, R. H. Rives and V. M. Acree. The taking of testimony began about 11 o'clock and good headway was made. Dr. J. B. Jackson testified as to the wound in Mr. Renshaw's head and its fatal nature.

Jarred R. Renshaw, the son of the deceased, told of meeting his father in a buggy, hat off and leaning over as if very ill. He jumped out of his own buggy and assisted him. Found blood on his arm from putting it around him but didn't know he had been shot until he turned his buggy around and took his father home. His hat when picked up had blood on it. He was going home from the fair ground. It was Sept. 25th.

Mrs. Dalton and daughter, Miss Cecil Dalton, testified that they were just ahead of Jarred Renshaw and met Mr. Renshaw in buggy, his hat off and stooped over. The son met his father, turned round and in taking him home passed their buggy.

Robley Rex, aged 11, was in a buggy with Mr. Atkins and his father, Hugo Rex. Saw Mr. Renshaw's hat in road and met him in buggy. Saw two negro men, one large one with light blue clothes with stripes and a wide brim hat. The other, a smaller man, wore a cap. They squatted down and backed into a hedge on the right, near the river, where later the tracks were found. Didn't know defendants at that time. Was about 3 or 4 o'clock.

Wm. Shepherd was working 400 yards away and heard the shot. Raised up and located it in the flat west of the bridge, as he thought. Saw no one and resumed his work. Was about 3 o'clock.

Hugo Rex was with his little son, but did not make a material witness. Judge W. T. Fowler said he had a contract with Wilson to cut a field of corn just before the shooting and that Wilson abandoned the contract after the shooting. Collected what was due him from Mrs. Fowler, and disappeared. He saw the tracks and

URAEMIC
POISONING

Causes The Death of Mr. J. Metcalfe Anderson, Wednesday Night.

BURIAL AT RIVERSIDE TODAY.

Was One Of The Thin Gray Line Of Gallant Confederate Veterans.

John Metcalfe Anderson, better known as "Met" Anderson, died at his boarding house at Fourteenth and Liberty streets, at 11:50 o'clock Wednesday night, of uraemic poison. He had been ill only since Saturday.

Mr. Anderson was born near old Garrettsburg, in this county, Feb. 2, 1844, and lived in that vicinity on a farm until ten or more years ago, when he moved to Hopkinsville and had since been engaged in the tobacco business.

He was a Confederate veteran. He entered the army at 17 years of age and served for four years and was a gallant soldier throughout the whole war.

Mr. Anderson was quiet and modest in his disposition, but was a man of kind and noble impulses and had many loyal friends who appreciated his estimable traits of character. He knew the tobacco business well and his patrons had entire confidence in his judgment and in his uprightness as a dealer.

His wife died several years ago and he is survived by two of the four daughters born to them. These are Mrs. C. W. Bartleson, Jr., of Jacksonville, Fla., and Miss Alice Anderson, of this city.

The funeral services will be held by Rev. C. M. Thompson, of the First Baptist church, at the home of A. D. Wade, where he boarded, at ten o'clock this morning. The interment will be in Riverside Cemetery.

SEVEN MONTHS
ON ITS WAY

Mrs. Ollie James' Baggage, Abandoned In Austria, Reaches Washington Intact.

Washington, March 19.—After seven months on the way a trunk belonging to Mrs. Ollie M. James, wife of the Senator, has reached here. The expressage was \$20, which was gladly paid, for Mrs. James last saw the trunk on a railroad siding in Austria in August, 1914, and never really hoped to see it again. It contained many valuables, on some of which the Senator had to pay customs duties, but all its contents were intact.

Mrs. James had to leave the trunk in Austria at the outbreak of the European war early in August. She hastened to the United States via Germany, Denmark and England, leaving orders for the trunk to follow her. It did, but the journey required seven months.

some of them were, he thought, about like Wilson's shoes would make.

John McGee saw the tracks where the Rex boy said the men went through the hedge.

Deputy Sheriff Herbert Johnson said Ernest Wilson told him his clothes were at Geneva Chafin's, sister of Bubber Chafin, and when he went there he found her burning up a pair of shoes that she said Wilson had told her to burn. He got one of the partly burned shoes. Alex Tuck, col., testified to seeing Wilson going by Carroll's barn about 2:30 towards the bridge.

Dave Killebrew col., testified that he saw Chafin and a woman at the Clarksville pike overhead crossing about 2 o'clock.

Other witnesses stated that they saw both men in the vicinity that afternoon.

PEMBROKE
POSTMASTER

Decided Upon By Congressman Kincheloe Will Be Named Soon.

ESQ. GARROTT LUCKY -MAN.

Will Succeed T. A. Miller, Republican, Whose Term Expired Mar. 2.

Congressman D. H. Kincheloe has recommended Esq. W. Walton Garrott to be postmaster at Pembroke, succeeding T. A. Miller, whose term expired March 2.

There were eight or nine candidates for the appointment. The appointment is expected to be made at once and the change will be made probably by April 1st.

Esq. Garrott is now a member of the Fiscal Court, serving his second term. He moved from his farm into Pembroke a year or two ago. He will of course have to resign as justice of the peace before assuming the postmaster's position, which is worth about \$1,200 a year.

RATHER SUDDEN

Was The Death of Mr. Smith, Aged Citizen.

Mr. Solomon Smith, one of the most prominent citizens in North Christian, died Tuesday night at the Western State Hospital. He was received at the institution for treatment on Monday, but lived less than two days. Mr. Smith was about eighty years old and was a native of this county. For many years he was engaged in farming. Later he resided in Crofton for several years. From Crofton he moved to Kelly, where he had lived during the past seven or eight years. The deceased was a man of extensive acquaintance and he had many friends. His wife and several children survive.

Mr. Smith was a veteran of the Civil war, having served in the 3rd Kentucky Cavalry in the Union army. The interment took place in the Hamby burying ground, North Christian.

GREEN DAWSON

Victim of Acute Indigestion, Passes Away.

Green Dawson died rather suddenly Thursday night at his home between Roaring Spring and Lafayette. Mr. Dawson had been suffering from stomach trouble for some time, but was in his usual health Thursday and able to be out. Shortly after supper he was attacked with acute indigestion and lived only a short while.

The deceased was a son of Mr. Wick Dawson, a prominent planter of that section, and was a very popular and much esteemed citizen. He was about 28 years old and is survived by his wife.

DATE AND PLACE CHANGED

Clay Street School Play Will Be April 2, a Week Earlier.

The time and place of the Clay Street School play has been changed to Friday April 2 at the Tabernacle. The school gave up their date of April 9 on account of Co. Notice of appeal from the decision refusing to return Harry K. Thaw to New Hampshire was filed yesterday by Thaw's attorneys.

H. B. M. A.'S
SECRETARY

John W. Richards Chosen By The Directors After Long Deliberation.

IS A POPULAR HOME MAN.

Will Begin Active Work Next Week and Start a Spring Campaign For Business.

At a meeting of the directors of the Hopkinsville Business Men's Association, at which 10 of the 12 directors were present, John W. Richards, former tax collector of the city, was elected to the secretaryship of the association, made vacant by the retirement of C. H. Bleich February 1st.

There has been a prolonged contest for the position, but on the final vote Mr. Richards received 7 of the 10 votes cast. His service will begin Monday morning.

The H. B. M. A. has been in a condition of inactivity for nearly six months. Only one or two unimportant meetings were held last fall. A get-together meeting was held at the Avalon about two months ago, but nothing has been done since, as the secretary is the active officer of the association and this place has been vacant. The body has nearly 200 members and the first duty of the new secretary will be to collect up the delinquent dues and put the H. B. M. A. on a working basis for the spring campaign.

The election of directors will be held July 1st and the term for which the secretary is elected expires with the election of a new directory.

A meeting is due to be held next Friday night.

SUES HUSBAND
FOR SUPPORT

Mrs. Fred M. Frisse Alleges Desertion Soon After Marriage.

Evansville, Ind., March 19.—Fred M. Frisse, a furniture broker, was Wednesday sued in the Circuit Court here for support by his wife, Mrs. Nora Noe Frisse, of Hopkinsville, Ky. In her suit Mrs. Frisse charges that a few days after their marriage Frisse left her to consort with Mrs. Josie Brooks, a milliner. Mrs. Frisse alleges that her husband's desertion robbed her of her social position and left her destitute. She alleges that her husband transferred real estate valued at \$6,000 to his brother, John Frisse, and she asks that this property be used for her benefit. The marriage of Frisse and Miss Noe was solemnized at Hopkinsville November 23, 1911. Mrs. Frisse charges that shortly after her husband brought her here and deserted her that her father came from Hopkinsville and took her back home with him and she is now residing with her parents in Hopkinsville. Mrs. Frisse alleges that at the time of her marriage she moved in the best social circles. She asks the court to compel her husband to pay her the sum of \$50 a month.

Buys Farm In Christian.

Mr. B. J. Keeney, of this place, has closed a deal for the Cliff Clark farm, in Christian county, about one mile east of Gracey on the Hopkinsville road. This farm contains 183 acres, and the consideration is private. He will get possession of part of the land at once and will cultivate same this year, and will get possession of it all in October. He expects to move his family to Gracey as soon as he can secure a house.—Cadiz Record.

THE BELGIAN
OFFENSIVE

Is The Latest Development In The Western Battle Line.

ANOTHER VESSEL TORPEDOED.

Lull In Dardanelles Bombardment Due To Shortage of Ammunition.

London, March 19.—The next important battle in the west, it is believed, will take place along the river Yser, held on one side by the recently reorganized Belgian army, and on the other by the Germans.

As the floods have subsided, the Belgians, supported by the allies' warships, have pushed their line slightly forward, and this is almost certain to lead to counter attacks by the Germans and then a general engagement, as when similar movements were initiated elsewhere along the front. An artillery duel already has commenced.

There may be a slight delay while the Germans are awaiting reinforcements, for they have been using most of their reserves to counter attack the British troops at St. Eloi and Neuve Chapelle, and the French north of Arras, but that a big clash will soon come nobody doubts.

The contest for the spur of Notre Dame de Lorette is still in progress, and, according to Berlin, further attempts of the French to advance in Champagne, where they captured an important ridge north of La Mesnil, have been repulsed. Fighting in the Argonne forest and the Vosges has slackened somewhat, owing doubtless to the return of cold weather.

There is little news from the eastern front, and beyond the fact that the Russians again have crossed the East Prussian frontier in the far northeast, near Tilsit, and that they continue their offensive against the Austrians in Bukovina, there is no change.

There is a temporary lull in the bombardment of the Dardanelles and Smyrna, according to an Athens dispatch, due, it is thought, to unfavorable weather conditions. The Turks are taking advantage of this to repair damage done to the forts and batteries, and they express confidence, which is shared by the German field marshal, Baron von der Goltz, that the straits are impenetrable.

The belief is held here, however, that as soon as the ships receive fresh ammunition they will resume the attack with even greater force.

The British steamer Glenartney of Glasgow, was torpedoed this morning off Beachy Head by a German submarine, which gave no notice of her intention. In the scramble for boats one of the crew was drowned; the others numbering forty, several of whom were injured, were picked up by a steamer and landed at New Haven.

The Glenartney, which was off 3,390 tons registered, was bound from Bangkok, Siam, for London, loaded with 8,000 tons of rice.

Uncle Sam's Arrangement.

Washington, March 18.—An arrangement between Great Britain and Germany and Austria, by which representatives of the United States will inspect and report upon alien prison camps in those countries, and distribute to prisoners supplies from their own governments or other sources, was announced tonight by the State department, and it was stated that through the good offices of the American government similar arrangements were under contemplation between Russia and France and Germany and Austria.

Talleyrand's Mean Joke.

Mme. de Talleyrand had the name of
being as stupid as she was handsome,
and her husband took a manly pleas-
ure in leading her on to the commis-
sion of the most amazing blunders for
the amusement of their guests. One
day, for instance, when Denon, one of
the savants whom Bonaparte had
taken in his train on the expedition
to Egypt, was to dine with them, Tal-
leyrand told his wife that he was a
traveler of note, whose last book he
would give her to read. At dinner,
Denon was at first delighted by the
accuracy and discrimination of the
compliments which Mme. de Talley-
rand paid him, but she soon gave such
feeling pause by saying: "And that
good fellow Friday—what a comfort
he must have been to you!" Talley-
rand had given her "Robinson Crus-
oe" to read.

Adaptability of Brain.

Each vocation makes a different call
upon the brain and develops faculties
and qualities peculiar to itself, so that
as the various professions, trades and
specialties multiply, the brain takes
on new adaptive qualities, thus giving
greater variety and strength to civil-
ization as a mass. When the world
was young the brain of man was very
primitive, because the demand upon
it was largely for self-protection and
the acquisition of food, which called
only for the development of its lower,
its animal part. As civilization ad-
vanced, however, there was a higher
call upon the brain and more varied
development, until today, in the high-
est civilization, it has become exceed-
ingly complex.—Success Magazine.

IS HIGHEST COURT

Jewish Tribunal Whose Decisions
Are Final.English Israelites Bow to Rulings
Which Have No Recognition Leg-
ally—Few Appeals From Its
Findings Are Taken.Probably few Londoners are aware
of the existence of a Jewish court in
their midst which is known as the
"Beth Din," or the House of Judge-
ment. It is situated just off Aldgate,
close to the Great synagogue, in the
heart of Jewish London, and is the
highest religious, as well as civil, court
of the Jews. A raised bench runs along
one side of the court; in the center
are seats of the judges and the court
officials. The head judge, the chief
rabbi, has a seat in the exact center
with the assistant judges on either
side of him. The latter always include
an expert English lawyer and the head
of the "Shochetim"—the licensed
butchers, who may only kill cattle as
prescribed by the dietary laws of the
Jews.It is impossible, owing to the ethics
of the Jewish religion, for many cases
to be heard in the ordinary police or
county court. Cases dealing with Jew-
ish ritual, marriage laws, etc., are
adjudicated by the Beth Din, and it
rarely occurs that the parties con-
cerned are dissatisfied with the deci-
sions given in this court. No higher
tribunal can be approached for final
justice, as the decree of the Beth Din
is purported to be indisputable.It is very interesting to note that
the proceedings of this Jewish court
are held "in camera;" no newspaper
reports are permitted, neither are the
public allowed to be present during
the sittings.Though the Beth Din has no official
recognition from the state, its judg-
ments have more than once been con-
firmed in the ordinary courts. Some-
time ago a litigant, dissatisfied with
the judgment given against him at the
Ghetto court, took his case before
Judge Bacon at Whitechapel county
court. The chief rabbi offered to at-
tend and explain the reasons of his
decision, but his honor, without re-
quiring his presence, upheld the ver-
dict given by the Beth Din.

NOT MEANT FOR THE POCKET

First "Watches" May Have Kept Good
Time, but Were of Most Incon-
venient Size.At first the watch was about the
size of a dessert plate. It had weights
and was used as a "pocket clock."
The earliest known use of the modern
names occurs in the record of 1552,
which mentions that Edward VI had"one larum or watch of iron, the case
being likewise of gilt edge, with plum-
mets of lead."The first watches may readily be
supposed to have been of rude execu-
tion. The first great improvement,
the substitution of springs for weights,
was in 1550. The earliest springs were
not coiled, but only straight pieces of
lead.Early watches had only one hand
and, being wound up twice a day, they
could not be expected to keep time
nearer than fifteen or twenty minutes
in the twelve hours. The dials were of
silver or brass. The cases had no crys-
tals, but opened at the back and front
and were four or five inches in di-
ameter.A plain watch cost the equivalent of
\$1,600 in our currency, and, after one
was ordered, it took a year to make it

Corduroy for Uniform.

In line with the information that
the foreign governments have found
the cloths used in uniforms unfit for
long service under conditions of mod-
ern warfare, an inquiry has been re-
ceived in the market for corduroy, the
New York Times states. Reports place
the number of uniforms required by a
soldier in active service at two a
month. This is regarded as an exag-
geration in many quarters, but even
if one new uniform a month was need-
ed to clothe the man at the front, the
amount of cloth that would have to be
made up for this purpose would be
tremendous. Corduroy seems ad-
mirably adapted to use in strenuous
campaigns, and will probably give
much longer wear than the uniform
cloths now employed.

LIKE MAID'S BLUSH

Tree Simulates Color That Comes
and Goes on Cheek.To the Uninitiated, One of the Won-
ders of the Florida Swamps is the
Plant That Constantly
Changes Its Hue.The blush of a pretty maiden has oft-
been extolled in song and story. But
do you know that among the many
wonders of the vast Florida swamps
there is a tree, known as the blushing
tree, whose mysterious and beautiful
glow of color during a rainstorm is
far prettier than that of the prettiest
maiden?When the cool rain drenches the
blushing tree a change of color is
noted. Gradually, yet unmistakably,
the green hue gives way to pink. In afew minutes the green fades from
sight. Only in a few half-hidden spots
beneath the lower branches and on its
trunk is there a tinge of green to be
seen.After an hour or more, when the
shower passes over, the wonderful
tree assumes its familiar green once
more. As it is changing back to
emerald the spectator suddenly real-
izes the secret of the phenomenon.
Can you guess what it is? No? Well,
we'll tell you. Certainly, tiny insects,
and not the tree itself, change. These
peculiar parasites are possessed of the
power of chameleons.

The Chinese ministry of agriculture
and commerce has decided to issue a
magazine, which will be written in
conversational style, and the editorial
staff will be composed of technical ex-
perts and specialists of the ministry.
The principal object of the paper is
to arouse the people from their slum-
ber and encourage them to proceed
with their commercial business and
other enterprises.

A Scientific Age.

"The phonograph has made it pos-
sible for a public man to be in one place

rose and said, 'Gentlemen, we have
with us this evening the voice of our
eminent fellow citizen, Senator Jones-
by, who is himself unable to be pres-
ent.'"

Hongkong.

Hongkong is a small island con-
taining 27 square miles, lying to the
northeast of the estuary of the Pearl
river and 90 miles from Canton. The
new territory, the Kowloon extension
contains 376 square miles. The popu-
lation of Hongkong and the new ter-
ritory approximates 500,000, and the
European population does not exceed
14,000, of whom 3,000 are soldiers.

What It Takes to Kill a Man.

One mathematician has calculated
that during the first five months of
fighting in Europe it required the fir-
ing of 168 pounds of metal for every
soldier killed. This is less than was
required during the Civil war.WAR! What Is It
All About?HAS the whole world gone stark mad over a very foolish and trivial
question? Are swords rattling, cannon rumbling, mailed armour
glistering just because Russia wanted to show her love for the little
brother—Serbia?Tear aside the curtain of Europe's politics and see
the grim and sinister game of chess that is being played.
See upon what a slim, yet desperate, excuse the sacred
lives of millions may be sacrificed. Read the history

Duruy's History of the World

Four splendid cloth volumes, full of
portraits, sketches, maps, diagramsToday is the climax of a hundred years of preparation.
Read in this timely, authoritative, complete, AND THE
ONLY CONDENSED classic world history—of which over
2,000,000 copies have been sold in France alone—just what has
taken place in the inner councils of Europe during the past one
hundred years. Read in these entrancing pages how Russia
has for years craftily been trying to escape from her darkness—
to get a year-round open port, with its economic freedom.
Read how Germany and Austria, fearful of the monster's
latent strength, have been trying to checkmate her and how
they have pinned all in this last, supreme stake.

The Lesson of the Past

THIS master of the pen shows you the glory that was Greece's
and the grandeur that was Rome's. He guides you through the
Middle Ages, the picturesque old days of feudalism and the crusades;
through the Renaissance up to contemporary history, which Prof.
Grosvenor completes in brilliant manner. In the story of the past
lie the secrets of today. And you will understand them better when
you get the Review of Reviews for a year—for the Review of Re-
views will give you a sane interpretation of the events that are taking
place with such rapidity. It is not enough to read the daily news
reports. Your ability to comprehend conditions, and to discuss them
rationally depends on a true interpretation of the meaning and the
"reason why" of events. In your mind you must bring order
out of chaos—and the Review of Reviews will do it for you.Get the

DAIRY FACTS

FOR BETTER BUTTER MAKING

Greater Attention Should Be Given to Details Concerning Factors Affecting the Quality.

(By J. KEITHLEY.)

Of the 994,650,610 pounds of butter which, it is estimated is made on the farms annually in this country, the greater part of it is of very poor quality. If any improvement is to take place and prove of profit to the farm butter makers, it is very necessary that more attention be paid to the details which go to make up the whole of this important work.

The fundamental facts and practices concerning butter making should be applied by the farmer as well as the creamery operator. This knowledge and its importance should be known in order that it be intelligently applied. Cleanliness and attention to details are the three prerequisites to the making of good butter. The main defects in farm butter show these three prerequisites to be very frequently neglected. These defects are:

1. Bad flavors.
2. Lack of uniformity in color and salt.
3. Unsuitable packages and no uniformity in the style of the package.

The bad flavors are due largely or entirely to the changes in the milk

Style of Milk Pail Good for Any Dairy.

and cream before it is churned, rather than to the subsequent treatment of the butter.

The importance of cleanliness cannot be overemphasized. In our haste to accomplish a task we often sacrifice our better judgment, only to learn that haste at that stage of the work necessitates a waste in time and labor at a later period. This is particularly true in handling milk and cream to be used for butter on farms. The bodies of the cows, the utensils, and the conditions at the barn, the milk room, and the storage room should all be clean. These are the primary factors which affect the cleanliness of milk and cream.

The utensils should be of such material and construction that they are easily cleaned and kept so. The interior should be smooth, with no cracks or crevices for dirt and milk remnants to find lodgment and be removed only with difficulty. The surface should be heavily tinned and the seams filled with solder. Tinware should be kept bright and perfect. As soon as any rust spots make their appearance an entrance is given into the soft iron for germs and small particles of decaying matter, which are, in consequence, removed with much more difficulty. The process of cleaning vessels which have contained milk should be:

First, to rinse them thoroughly in cold water, then in lukewarm water. Second, wash thoroughly with the aid of some good soap or cleansing powder in water as hot as the hand will bear. Third, thoroughly rinse in hot water. Fourth, expose to live steam from one to two minutes or to boiling hot water for five minutes in case steam is not available. Fifth, exposure, if possible, in bright sunlight from two to three hours.

In this way the tinware can be kept clean and bright and free from bacteria. Having thoroughly cleaned the vessels the prevention of access of dirt to the milk in process of milking is important.

TREATING A SWOLLEN UDDER

Trouble is Often Caused by Permitting Cow to Lie on Cement Floor With Insufficient Bedding.

A caked or swollen udder is a common occurrence during calving season. It is often caused by allowing the cow to lie down on the cement floor with not enough bedding under her to keep her udder above the hard floor, whereby it becomes bruised or otherwise injured or congested.

The quickest and best remedy is to wash the udder very thoroughly with clean hot water, then rub it well for 15 or 20 minutes. The water should be as hot as the animal can stand. Use plenty of "elbow grease," as the rubbing is very important. Usually if the udder is not caked badly, one rubbing is sufficient to reduce the swelling, says a writer in an exchange. I have used a number of patent salves, but have found none equal to this treatment.

Is the Greatest Mystery Story of all Time!

THE most wonderful of all photoplay serials by the world's greatest fiction writer—E. Phillips Oppenheim.
Produced by the World's Greatest Director—Otis Turner.
On the World's Greatest Stage at Universal City, Cal.
The most vivid portrayal of crime and its detection ever known to man.

Swift and powerful action. Breathless scenes in every one of the fifteen episodes. Each a mental shock that brings you gasping to the edge of your seat.

Wonderful acting by the immaculate Herbert Rawlinson as Sanford Quest, the greatest detective character of modern fiction.

See the charming Anna Little, as Leonora, Sanford Quest's clever assistant.

See William Worthington as Professor Ashleigh, the scientist, a man of dual personality.

See Laura Oakley as the keen woman detective, and her marvelous masculine impersonations.

See Frank MacQuarrie as Craig, the man tortured by a horrible secret.

See the wondrous marvels of science used in the detection of crime—the pocket wireless—Anihaldyte, which explodes in one direction only; the Phototelsme (moving pictures by telephone), electric thought transference, hypnotic confessions, and all the other strange things.

See the leap from the fast express, speeding at 60 miles an hour.

See the mysterious hands that clutch the jewels from a woman's neck in a brilliantly lighted conservatory.

See the death defying leap from a tower to the top of the mile a minute freight train.

See these terrific thrillers and a thousand others besides.

Preaching at 10:45 a. m. and 7:30 p. m. by the pastor, Dr. Powell. Epworth League devotional service at 6:30 p. m. Dr. Powell will preach at the morning service on "Our Children—Should They Be Baptized." At 7:30 p. m. on "One Young Man That Made Good." Strangers and visitors invited and everybody welcome.

Everything in the Feed line. Call ALLEN & JACKSON, Phone 217.

Farm For Children's Home.

Announcement of the purchase of a farm of 120 acres for the use of the new institution was made by the Rev. A. B. Gardner, superintendent, and the Rev. Dr. W. M. Stallings, of Beaver Dam, treasurer, of the Kentucky Baptist Children's Home, recently established at Lynnland. The tract purchased is known as the Walker farm and immediately adjoins the grounds of the home. The purchase price was \$12,000.

SHARK'S BODY

Contained Bones of a Man Jonahed In Florida Waters.

Cleveland, Ohio, March 19.—Relatives of J. B. Mooney, of Mooney Bros. Company, who disappeared in the surf off St. Augustine, Fla., three years ago, began the other day to try to identify a skull found in a 1200-pound shark as that of the Cleveland. The shark was caught at Miami, Fla., early last week, and its body contained a human skull and other bones.

A diagram of the teeth of the missing man was sent by Dr. J. P. Henahan to a firm of undertakers at Miami, with which Edgar J. Mooney has been in communication since his father's death.

In the Dentist's Office.

"It is queer people get so frightened just about having a tooth pulled."

"It is that, especially when you consider they always have their nerve with them."

Intrenched.

Hickville Stage Hand (to member of visiting "Hamlet" company)—It certainly can't be no fun havin' to play a grave digger night after night.

Actor (cheerfully)—Oh, the position is not to be sneered at when a hostile audience starts a bombardment.—Puck.

More Strategy.

"Call on all the regiments for volunteers with red whiskers."

"For what purpose, excellency?"

"To lie on their backs and furnish an imitation of fall foliage as an ambush."

Change Without Variety.

Boarder—Here's a nickel I found in the hash.

Landlady—Yes, I put it there. You've been complaining, I understand, about lack of change in your meals.

Mollified.

Attorney—How old are you, Madam?

Witness—Sir!

Attorney—Beg your pardon; how much younger are you than the lady next door?

TUCKER IS SENTENCED

Because of Relations With Eleven-Year-Old Girl.

Louisville, Ky., March 18.—Thomas Tucker, a young white man, was given a prison sentence of ten years when he pleaded guilty here to a charge that he had had improper relations with a girl under sixteen years old.

The case has attracted the attention of the medical profession, inasmuch as the girl is only eleven years old. It is said to be one of a very few cases on record where a child has been born in North America to a girl so young.

Ethel Pearson, foster sister of the accused, was the complaining witness, while the plaintiff was a child who had been taken from an orphan asylum to live in the home of Tucker's parents.

A Splendid Example.

At the ripe age of 83, one of the patriarchs down in Allen county is buying and setting out fruit trees. What a splendid example the old chap is setting. He may not eat of the fruit, but his good works will follow him and the succeeding generations, if they are worth their salt, will do honor to his memory. It takes a wise and strong man to look ahead and plan for the future when oppressed with the burden of eighty odd years. We take off our hat to him and hope that he may be able to plant a tree on the day of his hundredth birthday anniversary.—Frankfort State Journal.

OFFICIAL NOTICE

White People of Garrettsburg and Beverly Districts Ask For Consolidated School.

The patrons of the Beverly and Garrettsburg local districts have petitioned the County Board of Education to consolidate their districts and build one large centralized school. This scheme would abandon the Beverly and Garrettsburg schools. Furthermore, the present Beverly district is so large that unless the schools are consolidated, the County Board of Education would be compelled to re-district and build two houses in the above mentioned district, therefore, the centralized school would take the place of the three one-room schools.

The County Board of Education has agreed to build a handsome, modern four-room school house about 1 mile north of Howell on the Palmyra road, provided the patrons in the district are willing to vote an additional tax in the district for the purpose of transporting the pupils by means of wagon to and from the said school.

A committee representing the district appeared before the County Board of Education at the last meeting and asked that the Board call an election and ask a vote on a 20c tax for the purpose of transporting the children and for the purpose of lengthening the school term from a six months to eight or nine months as the patrons may desire.

The County Board of Education, in compliance with this request has posted in the above mentioned districts the following notices of election and boundary of the present districts.

NOTICE!

Notice is hereby given by the Christian County Board of Education that an election will be held on the 16th of April, 1915, from 6 a. m. to 4 p. m. at a polling place on the west side of the Palmyra road about 1 mile from Howell, Ky., at the northeast corner of a field belonging to T. F. Clardy, for the purpose of determining whether the white voters in what is now known as the Beverly and Garrettsburg Common School Districts, which has been consolidated by the County Board of Education, are in favor of levying a tax of 20 per cent. on each \$100 worth of property owned by white people for the expense of the consolidation of said districts and for the purpose of transporting the school children to and from the school house to be located in the said consolidated district.

The Seamless Robe

By REV. GEORGE E. GUILLE
Bible Teacher, Extension Department
Moody Bible Institute, Chicago

TEXT—Then the soldiers, when they had crucified Jesus, took his garments and made four parts, to every soldier a part; and also his coat; now the coat was without seam, woven from the top throughout. They said therefore among themselves, Let us not rend it, but cast lots for it, whose it shall be. John 19:23-24.

The only legacy of material things which Jesus Christ left on earth was his garments. And these, being the common costume of a Galilean, displayed his poverty and the simplicity of his life.

Though he was God, by whom "were all things made" and who "upholdeth all things by the word of his power," as man he wore the clothing of a poor artisan.

Do "ye know the grace of our Lord Jesus Christ, that, though he was rich, yet for your sakes he became poor, that ye through his poverty might be rich?"

It was customary for the Roman soldiers, who officiated at an execution, to take the garments of their victim as a fee. But, though a Roman custom, unknown in David's time, it was written by him in the XXII Psalm, "They part my garments among them, and cast lots upon my vesture," and in the words following the text it is explained that what the soldiers did was "that this scripture might be fulfilled."

So the spirit of God writes it down as a part of Holy Scripture, that whenever the story of the cross is told, the story of Jesus' vesture must be told also, for that seamless robe that must not be rent is the figure of another robe, who can doubt? The full heart of the prophet sings of it, in Isaiah 61:10, "I will greatly rejoice in the Lord, my soul shall be joyful in my God; for he hath clothed me with the garments of salvation, he hath covered me with the robe of righteousness." This is that "best robe" which the father puts upon the prodigal to displace the rags of the far country and to make him fit for the father's house.

For Whom Provided.

And for whom is this robe provided? For his enemies. The soldiers whose hands are stained with his blood, who with wicked insults have nailed him to the awful cross—to them his "vesture" falls. "When we were enemies we were reconciled to God by the death of his son" (Rom. 5:10).

As

The sandal tree perfumes when riven
The ax that laid it low—
So

The very spear that pierced His side,
Drew forth the blood to save.

How Provided.

The means by which "the robe of righteousness" is provided are pictured in Eden. Adam and Eve have "sewed fig leaves together, and made themselves aprons." Awakened to the shame which sin has wrought they would by their own efforts patch up the ruin. With their own sinful hands they would cover the nakedness which sin has made manifest, and so make themselves fit for the presence of God. But not by that miserable invention can they stand before him. And in grace he comes to provide garments for them. "Unto Adam also and to his wife did the Lord God make coats of skins, and clothed them" (Gen. 3:21).

Here is the first emergence of the truth of vicarious atonement: those animals must needs die, their blood must be shed, in order to provide a covering in which the man and the woman could be accepted of God. And it is God who did it! With his own hands he made those "coats of skins."

Who Receives It.

In Proverbs 16:33 it is written: "The lot is cast into the lap, but the whole disposing thereof is of the Lord." That is, the casting of the lot meant that the choice was in God's hands. What, then, is his "disposing" as to this robe of righteousness? Let the apostle answer: "But now the righteousness of God without the law is manifested, being witnessed by the law and the prophets; even the righteousness of God which is by the faith of Jesus Christ unto all and upon all them that believe" (Rom. 3:21-22).

The righteousness of God is offered to all, it is put upon the believer; held out to every man, given to whoever will receive it. I, who have no righteousness of my own, do but look upon that blessed one hanging on the cross and say, "It was for me—The son of God loved me and gave himself for me," and thus receiving him by faith am "made the righteousness of God to him."

No angel can say "Christ is my righteousness," but the poorest, feeblest believer in him can say it! O soul, hast thou this robe?

LOSING HOPE WOMAN VERY ILL

Finally Restored To Health
By Lydia E. Pinkham's
Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and run down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Woman's Precious Gift.
The one which she should most zealously guard, is her health, but it is the one most often neglected, until some ailment peculiar to her sex has fastened itself upon her. When so affected such women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

THE BIGGEST TYPEWRITER IN THE WORLD.

A typewriter that is nearly 2,000 times the size of the ordinary machine is one of the novel exhibits at the Panama-Pacific Exposition. While installed principally as an advertisement, this enormous machine also serves another purpose of as great importance, since it is used for writing newspaper bulletins that can be read a block away. This machine, which is 21 ft. wide and 15 ft. high, is reported to have cost \$100,000. The type are 3 in. in height and print letters which are spaced 2 in. apart from center to center. The weight of the carriage is 3,500 lbs., the diameter of the key cup, which is the part of the machine ordinarily pressed by the finger, is 7 in., while the hollow cylinder is large enough for a man to crawl through. For using the machine, paper 9 ft. wide is required. A picture of the machine appears in the April Popular Mechanics Magazine.

ARE YOU RESPONSIBLE FOR YOUR DOG?

Farm and Fireside says: "A dog is property in Nebraska, his owner is personally responsible for any damage he may do. In Nebraska a dog which runs out upon the road may be shot by people annoyed by his barking. The useful, well-behaved dog will not be affected by such laws, and wise dog owners will agitate for such laws."

Little Chinaman Arrives.

The limited Chinese population in Louisville has received an addition in the person of Toy Hen, Jr., an eleven-year-old Chinese, who has arrived in Louisville to be with his father, Toy Hen, Sr., cook at Hendrick's restaurant, Fifth and Jefferson streets. Toy Hen, Sr., left his home in Canton just before the boy was born because of "difficulties with friends." The little boy made the long journey from Canton to Louisville by himself, although a relative took charge of him at San Francisco and started him on the railroad journey.—Louisville Times.

Looking Ahead.

In the event of the creation of an American Peace commission, Governor McCreary will likely be selected as one of its members. It is understood that both Senators James and Beckham will endorse the governor.—Owensboro Inquirer.

"JITNEY BUS" A NEW RIVAL OF THE STREET CAR.

Although a new feature in city transportation, the "jitney bus" has come into such popularity, particularly in cities of the Pacific coast, that it is proving a serious rival to the service of the street-car companies and is furnishing some knotty problems for the municipalities themselves. The "jitney bus" is simply an automobile that carries passengers for five cents. "Jitney" is a slang term of uncertain origin used for years on the Bowery in New York, and meaning a five-cent nickel coin. In Portland, Seattle, Los Angeles, and the cities of San Francisco Bay, there were nearly 3,000 automobiles engaged in this service in January, 1915, with the number constantly increasing, and the minimum daily earnings of these cars aggregated about \$19,000. As a result of this competition, the street railways of Los Angeles are cutting down some of the runs and taking off cars. Now the "jitney bus" has been introduced in Denver, Kansas City, Mo., and Des Moines, Ia., and is rapidly making its way eastward.—From the April Popular Mechanics Magazine.

HOW WOMEN'S HATS WILL LOOK THIS SPRING.

The following paragraph is taken from the Fashion department of the Woman's Home Companion: "The hat which combines both fabric and straw is especially in favor this season. There is a very good reason for this, for in shape, material and trimming it is suitable to wear with both the tailored suit and the more dressy costume. White, gray and tan are three of the most fashionable colors. A note of black velvet or deep blue is often used in combination. The hats are still placed on the head with a decided slant. Quaint streamer effects are back again and flowers and oddly curled ostrich feathers are frequently used as trimming."

How To Give Quinine To Children.
FEBRILINE is the trade-mark name given to an
improved Quinine. It is a Tasteless Syrup, pleas-
ant to take and does not disturb the stomach.
Children take it and never know it is Quinine.
Also especially adapted to adults who cannot
take ordinary Quinine. Does not nauseate nor
cause nervousness nor ringing in the head. Try
it the next time you need Quinine for any pur-
pose. Ask for 2-ounce original package. The
name FEBRILINE is blown in bottle. 25 cents.

SPLENDID WHILE THEY LAST

New Year Resolutions Are Good
Things, Provided They Are Not of
the Priggish Assortment.

Dr. Anna Howard Shaw, at a tea at
the Acorn club in Philadelphia, said of
New Year resolutions:

"They are splendid things—provid-
ed, of course, that they're not prig-
gish. There's a type of girl that leans
to priggish resolutions.

"In my childhood, I remember, a
little girl came to play with me about
New Year's time who was simply in-
sufferable.

"What's the matter with her?" I
asked.

"Oh," said another little girl, "she's
keeping all her New Year resolutions;
but she'll be all right again in a day
or so."

PERSONAL FACTOR IN DAIRY

Product From One Dairyman Who Neglects His Utensils Will Spoil Output of Hundred Good Ones.

(By MILLER PURVIS.)

If dairymen could be taught to think of the personal factor in the dairy business, the quality of the dairy products of this country would improve at once. The quality of the products of any given creamery or butter factory depends on the quality of the poorest cream or milk that is received at that factory to a considerable extent.

If among the patrons there is one who neglects to keep his milk things clean, who fails to properly clean his hand separator, who allows his milk to absorb foul odors, the product of that farm will affect the products of all the well managed farms that sell to the same factory.

One unclean dairy will spoil the product of a hundred good ones. It would seem that a law compelling unclean dairymen to improve their methods is the only solution.

I visited a creamery in Illinois where a method had been adopted

Champion English Shorthorn Cow.

which seemed to work effectively. There were three creameries in the same town. The one I visited I went to see because it had the reputation of being the most particular one in the state of Illinois. The owner absolutely declined to accept a can of milk which was not in perfect condition.

When the milk was delivered the butter maker was the sole judge as to its condition. I watched him take in milk all one morning. As a can was unloaded he lifted the lid, smelled of the contents and if he had any doubt about the quality he set it aside and it was sent back to the farm.

I asked the owner if he did not lose customers occasionally and he answered that he did. He said that not infrequently one of his customers became offended and took his milk to one of the other creameries and he was glad to have him do so.

The butter from the milk he took in was sold to a single Chicago firm and the receipts were divided among the patrons of the creamery, on a co-operative basis.

This method of selection put every patron on his guard. He knew that the day he took in bad flavored milk he was going to be cut out. Two or three of the patrons whose milk was rejected the day I watched the delivery took the rejection in good part, saying they would find out where the trouble lay. One or two grumbled a little and took their milk back, but not one gave any indication that he would not be back the next day.

This putting the quality of the milk on a financial basis and refusing to accept it unless it was beyond suspicion was not highly ethical, but it seemed to accomplish its purpose. The patrons were protected against uncleanly methods and paid for taking pains to furnish perfect milk. The butter from this factory has made a place for itself and the careless or incompetent dairyman has been put in the place in which he belongs.

FALL FRESHENING IS BEST

Arizona Expert Advises Having Majority of Calves Dropped in Fall—Scours Easier to Control.

A new settler who wishes to start in the dairy business asks when the calves should be dropped. Prof. G. W. Barnes, farm adviser on live stock service of the University of Arizona, answers: "When there is a constant demand for dairy products, it would be advisable to have cows freshening all during the year. The majority of the calves should be dropped in the fall. By such an arrangement the calves would not be bothered with flies, and scours is easier to control in the cool months; then by spring they are large enough to go through the hot months without sickening in growth. Cows, when freshened in the fall, will increase their milk flow when green fields come out in spring, thereby increasing the lactation period."
